An ActiveKids program "...where children develop the love of life-long learning"

# #1 Chess Program in Hong Kong

The Chess Academy was founded with the goals of teaching international chess to students, and most importantly, building children's character through chess playing. We have the BEST team of high caliber coaches including TWO Grandmasters, International FIDE Masters, FIDE Trainers and National Experts. We are also extremely experienced in conducting tournaments, so that students will have plenty of opportunity to compete and practice their skills.

## ActiveKids Chess Club Activities

Join our **Summer Special** to practice and play against other chess fanatics! (For intermediate Level or above)

Saturdays at 4:00 - 6:00pm

(Jun 8, 15, 22, 29, Jul 6, 13, 20, 27, Aug 3, 10, 17, 24) - \$300 for 4 sessions

# Hands-on Science Project to take home after every class!

For Ages 5 or above

## Lunar Rover Workshop (LR)

**Build your own Lunar Rover and explore the galaxies!**

It's time to get loony about the moon. Build your own motorized K'Nex Lunar Rover and make craters with marble meteorites! Discover the phases of the moon by constructing a mystery moon phase box. Compete in Moon Race and Astronaut Training and you will be ready to go far in exploring the galaxies beyond!

## Gizmo's Robot Factory (GRF)

**Build your own Walking Robot with K'nex!!**

Today, Robots are not simply confined to the pages of science fiction... In Gizmo's Robot Factory, we take a look at the exciting world of technology as we build Buggy-Bot, a unique walking robot made from K'nex. Join us as future robot engineers and get hands-on with many exciting aspects of science – from biomechanics and hydraulics to magnetism and chemistry!

## Fabulous Physics Fun (FPF)

**Join the exciting world of motion and energy!**

Fabulous Physics Fun is an exciting adventure into the world of motion and energy - a journey into the world of physics! Build a Crazy Crawler, a tracked, all-terrain vehicle. The children learn that physics is the science that underlies motion and energy as they begin their exploration of Newton's Laws of Motion. They'll get hands-on with circuits, simple machines as we discover what makes things move.

## Green Science (GS)

**Plan your City and build an Energy-Smart house!**

Go green with our teachers as we explore different sources of energy and learn about solar and wind power. Discuss how to replace the use of fossil fuel, which will cause air pollution. Students will investigate like real scientists and, in the process, they have fun and learn about how choices they make affect the planet. During the camp, the children will build their own "Green" power devices and plan their own Energy-Smart House.
